You must select from a drop-down menu the program that you are applying for.

- Field 1 select - Modern Manufacturing Initiative – Manufacturing Integration Stream
- Field 2 select - Modern Manufacturing Initiative – Manufacturing Integration Stream – Defence Priority Round 1

When you have selected the program, the following text will appear.

Growing the defence industrial base is a key priority for the Australian Government and Australian manufacturers are in a prime position to take advantage of the increased domestic and global investments in Defence capabilities. The numerous acquisition and sustainment opportunities that will come from these investments will support manufacturers to:

- make up a greater share of the defence supply chain by manufacturing the components and capabilities required for Defence acquisition and sustainment projects
- diversify their customer base and enter new markets beyond the ADF such as in foreign defence forces and/or broader national security sector (acquisition or sustainment), or civilian markets
- contribute to some of the world's most advanced supply chains and export to allies or likeminded countries.

The defence manufacturing sector is already actively involved in supporting Defence through major programs such as the Navy Hunter Class Frigate Program and the Air Force Joint Strike Fighter program but must continue to evolve and build its capabilities to seize these opportunities, meet increased demand, service new markets and manage the complexity of the acquisitions and exports requirements.

For the Modern Manufacturing Initiative's Translation and Integration grant opportunities, an initial combined total of approximately \$140 million is available from 2020-21 to 2023-24 across all the National Manufacturing Priorities.

The **Manufacturing Integration Stream** will support projects that integrate Australian businesses into domestic and international value chains, propelling their goods and services into new markets and fostering Australia's reputation as a modern manufacturing leader. It will encourage and facilitate linkages between local businesses and domestic and international firms, increasing scale, supply capacity, and the ability to innovate. It will also facilitate the adoption of product standards and greater sharing and transfer of knowledge.

The objectives of the Manufacturing Integration Stream are to:

- support Australian manufacturing businesses and entrepreneurs to participate in local and global value chains
- encourage manufacturers to adopt new technologies to support entry into new markets with innovative solutions to build scale and capability
- support Australian manufacturers to overcome barriers that are preventing them from identifying and accessing new value chains (as outlined in the relevant National Manufacturing Priority road map)
- create new jobs in the manufacturing sector, by integrating into new local and global value chains.
- identify opportunities for Australian manufacturing businesses, particularly in the National Manufacturing Priorities, to connect and network with local and global customers
- increase investment in Australian manufacturing, targeting the National Manufacturing Priorities

- Increase Australian exports through greater participation in global value chains, contributing to Gross Domestic Product
- increase manufacturing capability, particularly in relation to identifying and participating in, new local and global value chains
- grow and support manufacturing networks and ecosystems and increase collaboration.

The minimum grant amount is \$1 million.

The maximum grant amount is \$20 million.

We expect the average grant size to be around \$4 million.

We cannot fund the same project activities more than once as part of the Modern Manufacturing Initiative. You should read the [grant opportunity guidelines](#) and [sample grant agreements](#) before filling out this application. We recommend you keep the guidelines open as you are completing your application so you can refer to them when providing your responses.

To prevent you losing your work you should save often. The portal will time out after 30 minutes if you do not save. Typing or moving your mouse does not reset the time out.

Select Continue at the bottom of the screen create the application. The application number MIS will appear at the top of the next page (Eligibility).
