### Awards and recognition

Date	Description

Add additional rows as necessary

### Patents and publications

*[This section is required for Science Prizes nominees only, it is not required for Science Teaching Prizes nominees.]*

The CV should include reference to any patents and to four key articles or publications that relate most directly to the work referenced in the application. Where the nominee is a joint author, the citation should note if the nominee was the principal author or not. If the application is for a team, at least two of the team members, including the team leader, must be joint authors of at least three of the publications.
