

Automotive Transformation Scheme

ATS Registration in the National Interest form

This form is for applicants for registration under the Automotive Transformation Scheme (ATS) who do not meet the normal eligibility criteria for ATS participation and wish to seek permission to apply on the basis that registration would be in the national interest. All applicants using this form are assessed according to Part 2, Regulation 2.8 of the *Automotive Transformation Scheme Regulations 2010*.

Please read the *ATS Introduction Guidelines* and *ATS Registration in the National Interest Guidelines* before filling out this form. These documents are available at:

www.business.gov.au/assistance/automotive-transformation-scheme

Application deadlines

Applicants must apply for registration **before** 1 January of the ATS year for which registration is sought.

Completing and submitting the application form

This form allows the applicant to:

- seek the Minister's permission to apply for registration as a participant on the basis that the registration would be in the national interest
- apply for registration as a participant of ATS.

AusIndustry will first assess whether the applicant meets all the registration requirements other than the registration requirements set out in Part 2, subregulation 2.8(3) of the *ATS Regulations 2010*. After this has been done, AusIndustry will forward the form to the Minister who will determine whether or not to grant permission to apply for registration.

The *ATS Application for Registration in the National Interest* must be approved before the applicant becomes eligible to claim ATS assistance. Once registered under ATS, participants have an obligation to provide quarterly returns to claim assistance. Further, participants registered on the basis that the registration would be in the national interest must also meet any conditions the Minister sets when granting permission to apply for registration as well as any other requirements under the *Automotive Transformation Scheme Regulations 2010*.

All values and figures should be recorded in full, as whole numbers. Do not use decimal points.
