Moon to Mars Initiative: Supply Chain Capability Improvement Grants

Project Plan

Applicant name	[applicant name]
Project title	[project title]

You must submit a project plan with your grant application to demonstrate your case against Assessment Criteria 2.

Your project plan should address how you plan to:

- manage the project including scope, implementation methodology and timeframes
- mitigate delivery risks (including national security risks)
- secure required regulatory or other approvals.

Project plan

a. Describe the scope, implementation methodology and the timeframe for your project. This should include staffing/contractor arrangements to oversee and deliver the project.

b. Describe how you will manage risks, including but not limited to involvement of international partners, intellectual property protection, data security, protection of nationally significant information and cyber security.

c. Describe how you will secure any regulatory, or other, approvals required to undertake the project.

d. Describe how you will monitor progress and performance of your project (e.g., KPIs, objectives).
