IMPORTANT

This is an example template document only. It is provided as a possible starting point for a CRC to develop its Participants Agreement, but its use is not mandatory.

While changes to this template document may be made it should be noted that the CRC Entity, as the Recipient under the Grant Agreement, is responsible for ensuring that the Participants Agreement meets the requirements of both the collaboration and the Commonwealth. More specifically, the CRC Entity must ensure that the Participants Agreement and the CRC Entity constitution, and the obligations to which the Participants are bound under the Participants Agreement, are consistent with a number of clauses in the Grant Agreement (including those listed at clause 6.5 of that Agreement). It is recommended that whichever approach is taken in developing the Participants Agreement, the clauses relating to these obligations are retained without change, or if modified, or if this template is not used, that the clauses addressing these issues are very carefully considered. Clauses in this template agreement relating to those included at clause 6.5 of the Grant Agreement are flagged in this template in red text purely for ease of identification. Please remove all such red advisory text from this template before finalising the Participants Agreement.

This document is not intended as legal or taxation advice. Any person intending to make use of this document should seek their own independent legal, financial and taxation advice to ensure that the document meets the circumstances of the user.

Assumptions & Notes

Whilst this template document may be of benefit to the CRC community, users of this template agreement are strongly encouraged not to assume any particular CRC structure will satisfy the Australian Tax Office (ATO) requirements. Users should seek their own independent advice especially in relation to any taxation implications and the ability of CRC Participants to be entitled to the R&D Tax Incentive.

- This is a template agreement. It is designed to reflect principles and address issues that would commonly arise with an incorporated CRC structure. Nevertheless each CRC and its Participants must determine to what extent this document fits their circumstances and what (if any) changes are required.
- Footnotes may assist users to understand the implications of various clauses. They should all be deleted before this document is finalised for any particular CRC.
- This agreement should be read in conjunction with the relevant draft Grant Agreement.
- The CRC Details set out the issues that are likely to vary between CRCs. The template Project Details set out the issues that are likely to vary between Projects. This document does not purport to set a template for operational issues that will vary between CRCs such as IP management protocols and procedures.
- This template Participants Agreement has been prepared on the basis of the following assumptions. Every Participant should satisfy themselves that these assumptions apply to the CRC in which they will be involved. If not, they should seek advice as to what changes (if any) are required to reflect their own objectives and circumstances.

In those circumstances the CRC Entity will arrange for the non-Participant to sign a separate project agreement that is consistent with the terms in this Participants Agreement that apply to the conduct of Projects.</td>

2. Relationship to other agreements

2.1 Relationship to the Grant Agreement

Nothing in this Agreement will reduce or otherwise affect the obligations of the CRC Entity under the Grant Agreement. In the event of any inconsistency between this Agreement and the Grant Agreement, the Grant Agreement takes precedence.

2.2 CRC Entity authority to vary the Grant Agreement

The CRC Entity must not:
(a) waive any of its rights or benefits under the Grant Agreement; or
(b) agree with the Commonwealth to a variation of the Grant Agreement, without:

---

5 This order of precedence is from the *CRC Program Guidelines*. This sub-clause should not be further amended.
(i) [unanimous resolution/Special Board Resolution] of the CRC Board approving the variation; and/or

(ii) if the matters specified in clauses 2.2(a) or (b) are Special Majority Issues, compliance with clause 3.7.

2.3 Relationship to the Constitution

In the event of any inconsistency between this Agreement and the Constitution, this Agreement will prevail and the Parties will use their reasonable efforts to remove the inconsistency from the Constitution.

2.4 Relationship to the Project Details

In the event of any inconsistency between this Agreement and the Project Details, this Agreement will prevail and the Parties will use their reasonable efforts to remove the inconsistency from the Project Details subject, in the case of a Third Party Project Agreement, to any necessary consent of third parties to the Third Party Project Agreement.

Part B The CRC Entity

3. The CRC Entity

3.1 Role of CRC Entity

The CRC Entity will operate the CRC in accordance with the Grant Agreement, this Agreement and the Constitution. The CRC Entity will be responsible for the overall management and governance of the CRC.

3.2 Governance

The CRC Entity and the CRC Board must manage and govern the CRC under the Constitution and ensure that the Activities are at all times carried out in accordance with the Grant Agreement. This clause 3.2 is not intended to limit the ways in which the CRC Entity may participate in the CRC.

3.3 CRC Entity objects and powers

The objects of the CRC Entity will correspond with the CRC Objectives. The CRC Entity will only exercise its powers to carry out such objects and do things that are incidental or convenient to such exercise of powers.

3.4 CRC Entity Constitution

(a) The Constitution may only be amended by a resolution of the members of the CRC Entity in accordance with the Corporations Act 2001 (Cth), provided that any amendment to the Constitution that would be inconsistent with this Agreement requires the prior written agreement of all Parties.  

(b) The Parties must ensure that the Constitution is consistent with the obligations under clauses 4 and 5.1 of the Grant Agreement and otherwise allows the CRC Entity to meet its obligations under the Grant Agreement.

---

6 Delete whichever is inapplicable, or if neither is applicable then delete this subparagraph.
7 The Corporations Act requires a 75% majority resolution. A Participant will not have a vote in changing the Constitution if it is not a member of the CRC Entity, although its agreement is required for any change that would be inconsistent with this Agreement.
3.5 Management of the CRC Entity

(a) The CRC Entity will be managed by the CRC Board in accordance with the Constitution.

(b) The Parties must:

(i) ensure that the Chairperson is independent of each Participant and the management of the CRC, and is free of any business or other relationship that could materially interfere, or could reasonably be perceived to materially interfere, with the exercise of their unfettered and independent judgment;

(ii) select appropriate persons for the CRC Board, which should comprise a majority of members that are independent of the Participants; and

(iii) ensure that the Chairperson and Chief Executive Officer of the CRC Entity are not the same individual.

3.6 Membership of CRC Entity

The Participants are either members of the CRC Entity, or entitled to become members of the CRC Entity, in accordance with the Constitution. The CRC Entity and the Participants agree to promptly admit as a member of the CRC Entity any Participant that is not a member but has requested to be admitted.

3.7 Special majority approval of CRC Entity members

The CRC Entity must not do, or commit to do, any of the Special Majority Issues without a resolution passed by, or written consent given by, members of the CRC Entity who would together hold more than 75% of the votes in the event of a poll.

3.8 Other consents required

Clause 3.7 does not limit or prevail over any other consent or approval required under the Corporations Act 2001 (Cth), the Grant Agreement or the Constitution.

3.9 Provision of products, services and/or access

During the Agreement Period, the CRC Entity will provide the Participants with products, services and/or access as outlined in item 11 of Schedule 1.

Part C General Principles

4. CRC Objectives

4.1 Objectives

The Parties intend for the CRC Entity to:

(a) create a Cooperative Research Centre in the CRC Field with the capability of pursuing world class research and training relevant to the CRC Field;

(b) ensure that the Parties with their differing disciplines and backgrounds will, through their participation in the CRC, add value to each other so that the performance of the CRC will be greater than that of each Party acting independently;

8 The reference to a non-profit scientific institution is only appropriate if the CRC is seeking tax exemption.
(c) increase the skills of persons already working in the CRC Field and to train and
equip new postgraduate and other students with skills and attributes to continue
being productive in the CRC Field;
(d) promote a managed and cooperative approach to research and education in the CRC
Field so as to maximise the benefits from that research and education;
(e) carry out education activities in the CRC Field for students and for the professional
development of persons working in the CRC Field;
(f) promote the CRC Program; and
(g) act as a trustee of Agreement Material and commercialisation income in accordance
with the Participants Agreement.\(^9\)

4.2 Interpretation

In the interpretation of a provision of this Agreement, a construction that would promote
the CRC Objectives will be preferred to a construction that would not promote the CRC
Objectives.

5. General Obligations

5.1 Mutual obligations

Each Party agrees that it will:

(a) diligently perform its obligations as set out in this Agreement and the Constitution

(a) must be kept confidential; and
(b) may only be used to attempt to resolve the Dispute.

\(^{15}\) This should include descriptions of 'know how' (without destroying any confidentiality that applies).  
\(^{16}\) The CRC Entity share or a Project Participant's share can be specified as nil if required. The ATO has expressed a non-binding view that a participant is unlikely to be entitled to the R&D Tax Incentive if the participant cannot show that its share of IP and other benefits is not commensurate with its contribution. Therefore there is a risk that entitlement to a share of the commercialisation income by the CRC Entity may result in the taxpaying Project Participants not being entitled to the R&D Tax Incentive. Project Participants should seek specialist advice and/or obtain a tax ruling.  
\(^{17}\) Participants and the CRC Entity must agree between themselves on the formula to be used to determine the Project Participant's Project Shares.

   20.1 [State whether or not a Project Participant’s rights to a share of net commercialisation income will reduce if it withdraws from commercialisation, and if so by how much or by what formula. Your approach may depend on whether and to what extent risk has reduced under item 10 (otherwise there may appear to be an incentive to withdraw), e.g., if a broad indemnity is granted in item 10, it may be reasonable to state that the share is to reduce to nil or by some large % with respect to the particular Agreement Material.]

10. **Project Plan**

    1.1, 14.4

    [Note: this is likely to be a separate attachment]

    Plan should include, as a minimum, the following:

    a. the completion date;
    b. the objectives;
    c. the proposed strategy to be followed;
    d. potential outcomes;
    e. the Deliverables;
    f. a budget;
    g. contributions to be made by third parties;
    h. resource requirements, including Contributions, Pre-existing IP, CRC Funds;
    i. student requirements (if any);
    j. required expenditure on new Assets (if any);
    k. a risk analysis; and
    l. an analysis of the likely opportunities for commercialisation of potential outcomes.
