Energy Efficient Communities Program - Business Stream
Small Business Grants
Supplier Declaration Form

IMPORTANT NOTE:
- All relevant boxes must be ticked and the form must be signed and dated or the application may be considered incomplete and ineligible.
- When saving this form please do not use special characters such as x->?$* in the document file name to avoid issues with the upload of the document into the portal system.

I, as the product or service supplier/ installer have read and understood Appendix B of the Energy Efficient Communities Program - Small Business Grants Guidelines. I confirm that, to the best of my knowledge all products, installations and works for this project as selected below meet the eligibility requirements as set out in the guidelines.

☐ Equipment Installation (generally)
  ☐ all installation and decommissioning works will be completed by licensed tradesperson(s)
  ☐ all works that carry a risk of refrigerant being emitted will completed by an ARC air conditioning technician with an ARC refrigerant handling license
  ☐ existing equipment being replaced will be disposed of, decommissioned or recycled in accordance with appropriate regulations

☐ Heating, Ventilation and Air conditioning
  ☐ each equipment item supplied as part of this project meets any applicable component efficiency requirements specified in Part J5 of the National Construction Code, 2019

☐ Lighting Upgrades
  ☐ all works will be carried out by a licensed electrician
  ☐ the new lighting equipment is LED, replacing a non-LED system, and/or installing energy saving lighting controls such as motion sensors and timers
  ☐ replacement lightbulbs have an efficiency of at least 120 lumens per Watt for LED tubes or 90 lumens per Watt for other (non-linear) bulbs
  ☐ all replacement light bulbs, light fittings, drivers or transformers that carry the Australian Regulatory Compliance Mark

☐ Energy Audits
  ☐ the audit meets the requirements of AS/NZS 3598:2014

☐ Three Phase Motors
  ☐ three phase motors meet the IE3 efficiency requirements of the GEMS Determination (the GEMS Determination will generally apply to 3 phase single speed motors with a rated output from greater than or equal to 0.73 kW to less than 185 kW)

To the best of my knowledge I understand that the products, systems and works carried out on this project will comply with all relevant state, territory and national standards and legislation. I understand that I will be required to complete a report regarding works carried out in order to assist with reporting of estimated emissions reductions for this project.
